8. APPROVAL: ESTABLISH PINCO ACCOUNT(S) IN DEPARTMENT OF DEFENSE PRODUCE PROGRAM

Background: It was decided in discussion at PINCO's February 21, 2019 Advisory Committee meeting regarding the Department of Defense Produce Program (DOD) to postpone declaring any USDA entitlement into the program in order to gather further information on direct deliveries from the Prime Vendor and until PINCO's 2019-2020 additional entitlement monies are available (12% USDA "bump" estimated to arrive in July). Subsequent to this meeting and follow-up meetings with CDE, there had been confirmation of the following with the DOD program for 2019-2020:

- DOD's Prime Vendor, Coast Citrus/Tropical will deliver direct to all PINCO Member Districts meeting the \$150.00 minimum (based on FMV at time order is placed in FFAVORS).
- If accounts are opened in DOD's FFAVORS ordering system in 2018-2019, Member Districts would be eligible to request DOD swept entitlement available after May 1st; any claimed entitlement must be spent by June 30th.
- PINCO could divert USDA entitlement from the remaining \$140,000.00 2018-2019 balance.
- PINCO Member Districts may perform "Inter-District" transfer of DOD entitlement within/between fellow Member Districts.

Attached is the most recent DOD order form listing products and corresponding FMV. The \$150.00 minimum required for direct delivery is reasonable and could help off-set hard dollar produce expenses for a number of items being purchased through the commercial produce vendor(s). Also attached is an example showing entitlement broken-down by fair share using \$100,000.00 of PINCO's remaining 2018-2019 entitlement. April 1st is the deadline for diverting entitlement into DOD.

It is recommended PINCO's Executive Committee review the updated information and forward to PINCO's Advisory Committee for approval to direct the Lead Agency to move forward in establishing DOD accounts for each PINCO Member District.

MOTION: DELANO ELEM. SECONDED: LANCASTER VOTE: YES X NO

10. UPDATE: PINCO INTERNAL SWEEP POLICY

Background: at the February 22, 2019 Advisory Committee meeting, Member District discussed the impact of new language adopted in PINCO's Internal Sweep Policy (ISP). Members have asked the Commodity Sub-committee to study alternatives to measuring usage at-processor "by percentage" and consider other ordering cut-off timeline(s) providing more time to Member Districts without jeopardizing entitlement. PINCO's Advisory Committee also voted to allow access to any unclaimed swept pounds by Member District who had pounds "swept" with the condition of submitting purchase order(s); two weeks, or until available pounds were taken was the timeline established.

Procedures for Succession of Officers

In accordance with PINCO J.P.A. Section Seven, Subsection C, these procedures will clarify the election and succession of officers in the event of a vacancy. If approved, the procedures shall be included in the PINCO Procedures Manual.

Election of Officers:

During an Advisory meeting, each Region will elect a representative and an alternate. The four Regional Representatives separately meet and elect the First Vice President, Second Vice President, and Secretary. The Regions that fill the officers' positions will move the alternate up to the representative position and vote for a new alternate. In the event the alternate is unable to assume the representative position, the region will elect a new representative.

Succession of Officers:

In the event of a PINCO Executive Committee Officer's vacancy during their elected term, the junior position would ascend to the next vacancy; Second Vice President moves to First Vice President and the Secretary would move to the Second Vice President. In the event of any position not being filled by a junior position, the regional representatives and remaining officers shall meet separately and elect the open position. The alternate in the Region that is elected will move up to be the representative of the Region, and an alternate will be elected by the Region. If the alternate cannot fulfill the representative position the process of Election of Officers above will be used. If an Elected Officer moves to a new district that officer position will become vacant and must be filled according to these procedures.

Voting Rights of Officers:

In accordance with language pertaining to voting rights in the JPA, PINCO Chairman will not cast a vote on the Executive Committee allowing the Lead Agency's Alternate Representative to hold an Executive Committee office. IV. How to Place a Delivery Order to Your School Site(s)

A. Sending Food/Delivery Orders to the Service Center:

1. Orders must be submitted, by Fax or e-mail, no later than 11:00 a.m. 2 days prior to scheduled delivery date. (Attachments Seventeen)
2. Prior to sending order, check your order against your on hand inventory on the website. If product is not in your inventory, check the Weekly Newsletter for expected inbounds to see if the product may be arriving prior to your delivery date.

3. If your product will not arrive by your delivery date, you may also contact another district regarding the possibility of trading/purchasing/borrowing from them, pending the arrival of your product. If all else fails, you can contact the Service Center about the possibility of having product "fronted" to you.
4. Don at the Service Center will double check your on hand inventory verifying the oldest dates are being used if applicable.
5. Your orders are then entered in at the Service Center where pick sheets are printed for freezer, cooler and dry warehouses. Orders are then posted and the districts' inventories are updated.
6. If you need to submit an add-on to your delivery, please do so before 11:00 am the day prior to your delivery. Again, with these add-ons, orders are checked, entered and posted. The Service Center staff asks that you limit the frequency of add-ons. These do require extra time and effort on the part of the staff, both in the office and in the warehouse.

B. Receiving Deliveries at Your Site(s):

1. FoodSource Transportation drivers will bring a Delivery Slip with them which is a duplicate of your order (Attachment Eighteen)
2. The driver will off load the product while a representative of the school checks product counts and descriptions.
3. If there are any discrepancies, they should be dealt with immediately. The driver is to call the Service Center when an overage/shortage has been discovered.
4. After everything has been checked in and any discrepancies have been dealt with, the school rep that checked in the delivery should sign and date the delivery slip. A signed delivery slip indicates that the delivery is correct or that noted corrections are accepted. Because discrepancies cannot be verified, by the driver, after the point of signature, adjustments and corrections cannot be made later. It is the responsibility of the delivery site staff to verify that the delivery is complete and correct prior to signing the delivery slip.
5. The delivery slips are turned into the Service Center and filed for future reference.
6. A copy of the delivery slip is left at the delivery site for your records.

C. Will Calls:

1. If product is not available prior to your scheduled delivery date (for example; Monday), but is expected to arrive prior to your menu date (for example; Friday), you can call the Service Center and arrange to pick up the product. Try to call as far in advance as possible.
2. If you forgot to order a product (for example; 5 cases of catsup), you can call the Service Center and arrange to pick up the product. Again, try to call as far in advance as possible.
3. This practice is only to be utilized as an emergency contingency, and should not be used as a regular "delivery" method.

V. Manufacturers' Specification (Spec) Sheets

Most Manufacturers' Spec Sheets are available on the PINCO website. Click on the "Specs" tab, select the Manufacturer and then select the Product. These spec sheets will include nutritional information and may include food allergen warning.
